

ADV2021_154 Microsoft Security Update (15th September 2021)

Microsoft has published a security advisory highlighting vulnerabilities in the following products listed below on the 14th of September 2021. It is recommended that you take the necessary precaution by ensuring your products are always safe.

- Azure Open Management Infrastructure
- Remote Desktop client for Windows Desktop
- Windows Server version 20H2 and version 2004
- Windows Server 2008, 2008 R2, 2012, 2012 R2, 2016, 2019 and 2022

For more information on this Microsoft update, you can follow this URL:

<https://msrc.microsoft.com/update-guide/en-us>

The Guyana National CIRT recommends that users and administrators review this update and apply it where necessary.
