## ADV2025\_207 HPE Security Advisory (July 17th, 2025)

HPE has published a security advisory highlighting vulnerabilities in the following products on July 16th, 2025. It is recommended that you take the necessary precautions by ensuring your products are always updated.

- HPE Telco Service Orchestrator – versions prior to v5.2.1
- HPE Cray XD670 – version prior to TPM Firmware v7.86
- HPE Cray XD675 – version prior to TPM Firmware v15.24

For more information on these updates, you can follow these URLs:

- [HPE Security Bulletin - HPESBNW04875 rev.1 - HPE Telco Service Orchestrator Software, Authenticated SQL Injection](#)
- [HPESBCR04898 rev.1 - Certain HPE Cray XD Servers Using Certain TPM 2.0, Local Denial of Service Vulnerability](#)

The Guyana National CIRT recommends that users and administrators review these updates and apply them where necessary.
