

ADV2024_222 OpenSSH Security Advisory (5th July 2024)

OpenSSH has published a security advisory to address vulnerabilities affecting the following products on July 1, 2024. It is recommended that you take the necessary precautions to ensure your products are always protected.

- OpenSSH – versions 8.5p1 to 9.7p1

For more information on these updates, you can follow this URL:

<https://www.openssh.com/txt/release-9.8>

The Guyana National CIRT recommends that users and administrators review these updates and apply them where necessary.
