## ADV2025\_287 Cisco Security Advisory (August 20th, 2025)

Cisco has published a security advisory highlighting vulnerabilities in the following products on August 20th, 2025. It is recommended that you take the necessary precautions by ensuring your products are always updated.

- Cisco Duo Authentication Proxy – version 5.8.2 and prior and version 6.5.1 and prior
- Cisco Evolved Programmable Network Manager (EPNM) – version 7.1 and prior, versions 8.0 and 8.1
- Cisco Prime Infrastructure – version 3.9 and prior and version 3.10
- Cisco Identity Services Engine (ISE) – version 3.1 and prior, versions 3.2 and 3.3

For more information on these updates, you can follow these URLs:

- [Cisco Duo Authentication Proxy Information Disclosure Vulnerability](#)
- [Cisco Evolved Programmable Network Manager and Cisco Prime Infrastructure Sensitive Information Disclosure Vulnerability](#)
- [Cisco Identity Services Engine Arbitrary File Upload Vulnerability](#)
- [Cisco Security Advisories](#)

The Guyana National CIRT recommends that users and administrators review these updates and apply them where necessary.
