ADV2026_109 VMware Security Advisory (February 24th, 2026)

VMware published a security advisory highlighting vulnerabilities in the following products on February 24, 2026. It is recommended that you take the necessary precautions by ensuring your products are always updated.

- VMware Cloud Foundation – versions prior to 9.0.2.0
- VMware vSphere Foundation – versions prior to 9.0.2.0
- VMware Aria Operations – versions prior to 8.18.6

For more information on these updates, you can follow these URLs:

- [VMSA-2026-0001: VMware Aria Operations updates address multiple vulnerabilities \(CVE-2026-22719, CVE-2026-22720 and CVE-2026-22721\)](#)
- [Security Advisories - VMware Cloud Foundation](#)

The Guyana National CIRT recommends that users and administrators review these updates and apply them where necessary.
