

## ADV2024\_22 Juniper Networks Security Advisory (2nd February 2024)

Juniper Networks has published a security advisory to address vulnerabilities affecting the following products on February 1, 2024. It is recommended that you take the necessary precautions to ensure your products are always protected.

- Log Collector – versions prior to v1.8.4
- SOAR Plugin App – versions prior to 5.3.1
- Deployment Intelligence App – versions prior to 3.0.12
- User Behavior Analytics Application – versions prior to 4.1.1

For more information on these updates, you can follow this URL:

[Security Bulletin: JSA Series: Multiple vulnerabilities resolved in JSA Applications](#)

The Guyana National CIRT recommends that users and administrators review these updates and apply them where necessary.
