ADV2024_70 Red Hat Security Advisory (13th March 2024)

Red Hat has published a security advisory to address vulnerabilities affecting the following products between March 5 and 6, 2024. It is recommended that you take the necessary precautions to ensure your products are always protected.

- Red Hat CodeReady Linux Builder – multiple versions and platforms
- Red Hat Enterprise Linux – multiple versions and platforms
- Red Hat Enterprise Linux Server – multiple versions and platforms
- Red Hat Virtualization Host 4 for RHEL 8 x86_64

For more information on these updates, you can follow these URLs:

1. Linux-firmware security update
2. Kernel security, bug fix, and enhancement update

The Guyana National CIRT recommends that users and administrators review these updates and apply them where necessary.
