

ADV2026_149 Cisco Security Advisory (March 12th, 2026)

Cisco published a security advisory highlighting vulnerabilities in the following products on March 11th, 2026. It is recommended that you take the necessary precautions by ensuring your products are always updated.

- Cisco NCS 5700 Series line cards – multiple versions
- Cisco NCS 5700 Series Fixed Chassis – multiple versions
- Cisco IOS XR Software – multiple versions
- Cisco Unified Intelligence Center – all versions
- Cisco Finesse – all versions
- Cisco Packaged CCE – all versions
- Cisco Unified CCE – all versions
- Cisco Unified CCX – all versions

For more information on these updates, you can follow these URLs:

- [Cisco IOS XR Egress Packet Network Interface Aligner Interrupt Denial of Service Vulnerability](#)
- [Cisco IOS XR Software Multi-Instance Intermediate System-to-Intermediate System Denial of Service Vulnerability](#)
- [Cisco IOS XR Software CLI Privilege Escalation Vulnerabilities](#)
- [Multiple Cisco Contact Center Products Cross-Site Scripting Vulnerabilities](#)
- [Cisco Security Advisories](#)

The Guyana National CIRT recommends that users and administrators review these updates and apply them where necessary.
