

## ADV2024\_77 Dell Security Advisory (18th March 2024)

Dell has published a security advisory to address vulnerabilities affecting the following products on March 11 and 14, 2024. It is recommended that you take the necessary precautions to ensure your products are always protected.

- Dell EMC VxRail Appliance 8.0.x versions prior to 8.0.210
- NetWorker vProxy multiple versions

For more information on these updates, you can follow these URLs:

- DSA-2024-050: Security Update for Dell VxRail Multiple Third-Party Component Vulnerabilities
- DSA-2024-091: Security Update for Dell NetWorker vProxy multiple component vulnerabilities

The Guyana National CIRT recommends that users and administrators review these updates and apply them where necessary.
