ADV2025_411 Splunk Security Advisory (December 9th, 2025)

Splunk published security advisories to address vulnerabilities in the following products on December 3, 2025. It is recommended that you take these necessary precautions by ensuring your products are always updated.

- Splunk Enterprise – multiple versions
- Splunk Cloud Platform – multiple versions
- Splunk Secure Gateway – multiple versions
- Splunk MCP Server – versions prior to 0.2.4

For more information on these updates, you can follow this URL:

- [Splunk Security Advisories](#)

The Guyana National CIRT recommends that users and administrators review these updates and apply them where necessary.
