

ADV2024_27 HPE Security Advisory (9th February 2024)

HPE has published a security advisory to address vulnerabilities affecting the following product on February 5, 2024. It is recommended that you take the necessary precautions to ensure your products are always protected.

- HPE Unified OSS Console (UOC) – versions prior to v3.1.1

For more information on this update, you can follow this URL:

[HPE Unified OSS Console Assurance Monitoring \(UOCAM\), Multiple Vulnerabilities](#)

The Guyana National CIRT recommends that users and administrators review this update and apply it where necessary.
