

ADV2024_42 Dell Security Advisory (19th February 2024)

Dell has published a security advisory to address vulnerabilities affecting the following products between February 12 and 16, 2024. It is recommended that you take the necessary precautions to ensure your products are always protected.

- Dell APEX Cloud Platform for Red Hat OpenShift – version 03.00.00.00
- Dell Power Protect Data Manager – version 19.15 and prior
- Dell Unity – versions prior to 5.4
- RecoverPoint for Virtual Machines – multiple versions

For more information on these updates, you can follow these URLs:

1. [DSA-2024-075: Security Update for Dell APEX Cloud Platform](#)
2. [DSA-2024-061: Dell Power Protect Data Manager Update](#)
3. [DSA-2024-042: Dell Unity, Dell Unity VSA and Dell Unity XT Security Update](#)
4. [DSA-2024-092: Security Update for Dell RecoverPoint](#)

The Guyana National CIRT recommends that users and administrators review these updates and apply them where necessary.
