## ADV2025\_222 HPE Security Advisory (July 28th, 2025)

HPE has published a security advisory highlighting vulnerabilities in the following product on July 23rd, 2025. It is recommended that you take the necessary precautions by ensuring your products are always updated.

- HP-UX 11i Secure Shell Software – versions prior to A.09.30.010

For more information on this update, you can follow these URLs:

- [HPESBUX04903 rev.1 - HP-UX Secure Shell daemon \(sshd\), Multiple Vulnerabilities](#)
- [HPE Security Bulletin Library](#)

The Guyana National CIRT recommends that users and administrators review this update and apply it where necessary.
