CIRT.GY Guyana National Computer Incident Response Team

ADV2026_131 HPE Security Advisory (March 4th, 2026)

HPE published a security advisory highlighting vulnerabilities in the following product on March 4, 2026. It is recommended that you take the necessary precautions by ensuring your product is always updated.

- HPE Aruba Networking – multiple versions and models

For more information on these updates, you can follow these URL:

- HPESBNW05026 rev.1 - Multiple Vulnerabilities in HPE Aruba Networking Wireless Operating Systems (AOS-8 and AOS-10) for Mobility Conductors, Controllers, Gateways, and Access Points.
- HPE Security Bulletin Library

The Guyana National CIRT recommends that users and administrators review this update and apply it where necessary.
