ADV2025_371 HPE Security Advisory (October 15th , 2025)

HPE published a security advisory highlighting vulnerabilities in the following product on October 13th , 2025. It is recommended that you take the necessary precautions by ensuring your products are always updated.

- HPE Compute Scale-up Server 3200 – versions prior to v1.65.60
- HPE Superdome Flex 280 Server - versions prior to v2.05.12

For more information on these updates, you can follow these URLs:

- [HPESBHF04954 rev.1 - HPE Compute Scale-up Server 3200 Platform and Superdome Flex 280 servers, Security Bypass Vulnerability](#)
- [HPE Security Bulletin Library](#)

The Guyana National CIRT recommends that users and administrators review this update and apply it where necessary.
