ADV2025_29 VMware Security Advisory (January 30th, 2025)

VMware has published a security advisory highlighting vulnerabilities in the following product on January 28th, 2025. It is recommended that you take the necessary precautions by ensuring your products are always updated.

- VMWare Avi Load Balancer – versions 30.1.1, 30.1.2, 30.2.1 and 30.2.2

For more information on this update, you can follow this URL:

[VMSA-2025-0002: VMware Avi Load Balancer \(CVE-2025-22217\)](#)

The Guyana National CIRT recommends that users and administrators review this update and apply it where necessary.
