ADV2024_100 Red Hat Security Advisory (9th April 2024)

Red Hat has published a security advisory to address vulnerabilities affecting the following products between April 1 and 7, 2024. It is recommended that you take the necessary precautions to ensure your products are always protected.

- Red Hat CodeReady Linux Builder – multiple versions and platforms
- Red Hat Enterprise Linux – multiple versions and platforms
- Red Hat Enterprise Linux Server – multiple versions and platforms
- Red Hat Virtualization Host – multiple versions and platforms

For more information on these updates, you can follow this URL:

https://access.redhat.com/security/security-updates/security-advisories

The Guyana National CIRT recommends that users and administrators review these updates and apply them where necessary.
