ADV2024_326 Red Hat Security Advisory (October 1st, 2024)

Red Hat has published a security advisory to address vulnerabilities affecting the following products between September 16th and 22nd 2024. It is recommended that you take the necessary precautions to ensure your products are always protected.

- Red Hat Enterprise Linux – multiple versions and platforms
- Red Hat Enterprise Linux Server – multiple versions and platforms
- Red Hat Enterprise Linux for Real Time – multiple versions and platforms
- Red Hat CodeReady Linux Builder – multiple versions and platforms

For more information on this update, you can follow this URL:

<https://access.redhat.com/security/security-updates/security-advisories>

The Guyana National CIRT recommends that users and administrators review this update and apply it where necessary.
