ADV2025_176 MongoDB Security Advisory (June 30th, 2025)

MongoDB has published a security advisory highlighting vulnerabilities in the following products on June 26th, 2025. It is recommended that you take the necessary precautions by ensuring your products are always updated.

- MongoDB Server v6.0 – versions prior to 6.0.21
- MongoDB Server v7.0 – versions prior to 7.0.17
- MongoDB Server v8.0 – versions prior to 8.0.5

For more information on these updates, you can follow this URL:

[Pre-auth denial of service when accepting OIDC authentication](#)

The Guyana National CIRT recommends that users and administrators review these updates and apply it where necessary.
