ADV2025_172 Cisco Security Advisory (June 27th, 2025)

Cisco has published a security advisory highlighting vulnerabilities in the following products on June 25th, 2025. It is recommended that you take the necessary precautions by ensuring your products are always updated.

- Cisco ISE and ISE-PIC – versions prior to 3.3
- Cisco ISE and ISE-PIC – versions prior to 3.4

For more information on these updates, you can follow these URLs:

- [Cisco Identity Services Engine Unauthenticated Remote Code Execution Vulnerabilities](#)
- [Cisco Security Advisories](#)

The Guyana National CIRT recommends that users and administrators review these updates and apply it where necessary.
