ADV2026_132 Cisco Security Advisory (March 05th, 2025)

Cisco has published a security advisory highlighting vulnerabilities in the following products on March 4th, 2026. It is recommended that you take the necessary precautions by ensuring your products are always updated.

- Cisco Security Cloud Control (SCC) Firewall Management – all versions

- Cisco Secure Firewall Management Center (FMC) – all versions

For more information on these updates, you can follow these URLs:

- Cisco Secure Firewall Management Center Software Authentication Bypass Vulnerability

- Cisco Secure Firewall Management Center Software Remote Code Execution Vulnerability

- Cisco Security Advisories

The Guyana National CIRT recommends that users and administrators review these updates and apply them where necessary.
