ADV2024_132 HPE Security Advisory (2nd May 2024)

HPE has published a security advisory to address vulnerabilities affecting the following products on April 30 and May 1, 2024. It is recommended that you take the necessary precautions to ensure your products are always protected.

- HPE OneView – versions prior to 8.90
- HPE Aruba Networking ArubaOS – multiple versions

For more information on these updates, you can follow these URLs:

1. HPE OneView - Multiple Vulnerabilities
2. HPE Aruba ArubaOS - Multiple Vulnerabilities

The Guyana National CIRT recommends that users and administrators review these updates and apply them where necessary.
