ADV2025_58 OpenSSH Security Advisory (21st February 2025)

OpenSSH has published a security advisory to address vulnerabilities affecting the following products on February 18, 2025. It is recommended that you take the necessary precautions to ensure your products are always protected.

- OpenSSH – versions 6.8p1 to 9.9p1

For more information on these updates, you can follow this URL:

<https://www.openssh.com/releasesnotes.html#9.9p2>

The Guyana National CIRT recommends that users and administrators review these updates and apply them where necessary.
