

ADV2024_395 VMware Security Advisory (26th November 2024)

VMware has published a security advisory to address vulnerabilities affecting the following products on November 26, 2024. It is recommended that you take the necessary precautions to ensure your products are always protected.

- VMware Aria Operations – versions 8.x
- VMware Cloud Foundation (VMware Aria Operations) – versions 5.x and 4.x

For more information on these updates, you can follow this URL:

[VMsa-2024-0022: VMware Aria Operations updates address multiple vulnerabilities](#)

The Guyana National CIRT recommends that users and administrators review these updates and apply them where necessary.
