

ADV2026_192 WatchGuard Security Advisory (March 30th, 2026)

WatchGuard published a security advisory highlighting vulnerabilities in the following products on March 26, 2026. It is recommended that you take the necessary precautions by ensuring your products are always updated.

- Fireware OS – versions prior to 2026.2
- Fireware OS – versions prior to 12.12

For more information on these updates, you can follow these URLs:

- [WatchGuard Firebox Insecure Deserialization in Fireware Access Portal \(CVE-2026-4266\)](#)
- [WatchGuard Security Advisories](#)

The Guyana National CIRT recommends that users and administrators review these updates and apply them where necessary.
