

ADV2026_201 Docker Security Advisory (March 31st, 2026)

Docker published a security advisory highlighting vulnerabilities in the following product on March 30, 2026. It is recommended that you take the necessary precautions by ensuring your product is always updated.

- Docker Desktop – versions prior to 4.67.0

For more information on this update, you can follow this URL:

- [Docker Desktop 4.67.0 security update: CVE-2026-33990](#)

The Guyana National CIRT recommends that users and administrators review this update and apply it where necessary.
