ADV2025_59 Juniper Security Advisory (21st February 2025)

Juniper has published a security advisory to address vulnerabilities affecting the following products on February 11, 2025. It is recommended that you take the necessary precautions to ensure your products are always protected.

- Session Smart Router – multiple versions
- Session Smart Conductor – multiple versions
- WAN Assurance Managed Routers – multiple versions

For more information on these updates, you can follow this URL:

https://supportportal.juniper.net/s/article/2025-02-Out-of-Cycle-Security-Bulletin-Session-Smart-Router-Session-Smart-Conductor-WAN-Assurance-Router-API-Authentication-Bypass-Vulnerability-CVE-2025-21589?language=en_US

The Guyana National CIRT recommends that users and administrators review these updates and apply them where necessary.
