ADV2026_106 Docker Security Advisory (February 24th, 2026)

Docker published a security advisory highlighting vulnerabilities in the following product on February 23, 2026. It is recommended that you take the necessary precautions by ensuring your product is always updated.

- Docker Desktop – versions prior to 4.62.0

For more information on this update, you can follow this URL:

- Docker Desktop release notes

The Guyana National CIRT recommends that users and administrators review this update and apply it where necessary.
