ADV2024_14 HPE Security Advisory (24th January 2024)

HPE has published a security advisory to address vulnerabilities affecting the following products on January 22 and 23, 2024. It is recommended that you take the necessary precautions to ensure your products are always protected.

- HPE Superdome Flex Server – versions prior to 90.18
- HPE Superdome Flex 280 Server – versions prior to v1.70.14
- HPE Compute Scale-up Server 3200 – versions prior to v1.10.342
- HPE Unified Mediation Bus – versions prior to 4.4

For more information on these updates, you can follow these URLs:

- HPE Superdome Flex, Superdome Flex 280 and Compute Scale-up Server 3200
- HPE Unified Mediation Bus (UMB)

The Guyana National CIRT recommends that users and administrators review these updates and apply them where necessary.
