ADV2024_08 VMware Security Advisory (17th January 2024)

VMware has published a security advisory to address vulnerabilities affecting the following products on January 16, 2024. It is recommended that you take the necessary precautions to ensure your products are always protected.

- VMware Aria Automation – versions 8.11.x, 8.12.x, 8.13.x and 8.14.x
- VMWare Cloud Foundation – versions 4.x and 5.x

For more information on these updates, you can follow this URL:

https://www.vmware.com/security/advisories/VMSA-2024-0001.html

The Guyana National CIRT recommends that users and administrators review these updates and apply them where necessary.
